

# CMOS IMAGING

## SEEING MORE THAN JUST PHOTONS

# Save the Date

The 9<sup>th</sup> Fraunhofer IMS Workshop CMOS IMAGING is going to take place on

**MAY 7<sup>th</sup> – 8<sup>th</sup>, 2019**

at the Fraunhofer InHaus-Zentrum in Duisburg

After a series of very successful workshops since 2002 we are happy to announce our 9<sup>th</sup> workshop on CMOS Imaging, a forum for the European industry and academia to meet and exchange the latest developments in CMOS based imaging technology. This year's key items are 3D imaging and LiDAR technologies, detectors for space, quantum imaging, and backside illumination technologies, among others. Well-known invited speakers from industry and research institutes will share the latest research outcome in their field of interest.

The workshop is organized by Fraunhofer IMS, Duisburg, Germany. In case you are interested and like to get further information please e-mail to the workshop office:
